

To whom it may concern. I would like to say that you would be making a big mistake to pass a bill requiring XM Satellite Radio to remove their Instant Traffic & Weather service. This bill is not something that the people of America are asking you to pass. This bill is supported by a group of people that make lots of money owning TV and radio stations. Now, these owners see that they could lose money and they want it stopped. Why don't these owners put a bill up to have the News stations removed from Satellite Radio? Because they make money. Please do not make the mistake of supporting such a stupid petition as NAB's petition 04-160.

Thanks

Greg Blaney
